3D Systems Announces Filing of Shelf Registration Statement

ROCK HILL, **South Carolina — February 24, 2010** - 3D Systems Corporation (NASDAQ: TDSC), a leading provider of 3-D Printing, Rapid Prototyping and Manufacturing Systems and Parts Solutions, announced today that it has filed with the Securities and Exchange Commission a universal shelf registration statement on Form S-3 providing for the offer and sale from time to time of up to $75 million of securities, including equity, debt and other securities as described in the registration statement.

The Company believes that filing a shelf registration statement is an efficient means to enable access to capital markets and to maximize its financial flexibility. However, the Company does not currently have any commitments or intentions to sell securities. As indicated in the registration statement, the Company expects to use the net proceeds from any offering that it may make under the registration statement to finance future acquisitions and for working capital and other general corporate purposes, which may include the repayment of future indebtedness.

The registration statement has been filed with the SEC but has not yet become effective. These securities may not be sold nor may offers to buy these securities be accepted prior to the time the shelf registration statement becomes effective. This press release shall not constitute an offer to sell or a solicitation of an offer to buy, nor shall there be any sale of these securities in

any jurisdiction in which an offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction. Any offering of the securities covered under the shelf registration statement will be made solely by means of a prospectus and an accompanying prospectus supplement relating to that offering.

Forward-Looking Statements

Certain statements made in this release that are not statements of historical or current facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the company to be materially different from historical results or from any future results expressed or implied by such forward-looking statements. In addition to statements that explicitly describe such risks and uncertainties, readers are urged to consider statements in the conditional or future tenses or that include terms such as "believes," "belief," "expects," "estimates," "intends," "anticipates" or "plans" to be uncertain and forward-looking. Forward-looking statements may include comments as to the company's beliefs and expectations as to future events and trends affecting its business and are necessarily subject to uncertainties, many of which are outside the control of the company. The factors described under the headings "Forward-Looking Statements," "Cautionary Statements and Risk Factors," and "Risk Factors" in the company's periodic filings with the Securities and Exchange Commission, as well as other factors, could cause actual results to differ materially from those reflected or predicted in forward-looking statements.

About 3D Systems Corporation

3D Systems is a leading provider of 3-D Printing, Rapid Prototyping and Manufacturing systems and parts solutions. Its expertly integrated solutions reduce the time and cost of designing products and facilitate direct and

indirect manufacturing by creating actual parts directly from digital input. These solutions are used for design communication and prototyping as well as for production of functional end-use parts: Our customers *Create With Confidence.*
