3D Systems Adds Seiko-I Infotech To Its Reseller Network

Expands Japanese Coverage with Recognized Wide-Format Solutions Provider

ROCK HILL, South Carolina – April 8, 2013 – [3D Systems](http://www.3dsystems.com) (NYSE:DDD) announced today that Seiko-I Infotech, Inc. (SIIT), a leading wide-format solutions provider to manufacturers, architects and construction companies, has joined its expanding reseller network. SIIT will represent 3D Systems' complete portfolio of [ProJet® 3D printers](#), full color [ZPrinters®](#) and extensive range of print materials through its 11 locations in Japan. As part of its launch, SIIT plans to exhibit 3D Systems' latest portfolio of 3D printers at the Design and Manufacturing Solutions (DMS) show June 19-21, 2013 in Tokyo.

SIIT brings four decades of successful, in-depth consultative 2D design solutions experience. "By combining our powerful 2D design experience with the most comprehensive 3D printing portfolio available on the market today, we plan to provide the best design-to-manufacturing products and tools to our customers," said Takahiro Matsui, Director and General Manager of SIIT.

"We are excited to team-up with a proven and experienced partner like SIIT," said Michele Marchesan, Vice President and General Manager 3D Printing of 3D Systems. "This agreement expands our Japanese coverage with a world-class organization that can deliver superior products, services and support to our customers."

About 3D Systems

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides CAD, reverse engineering and inspection software tools and consumer 3D printers, apps and services. Its expertly integrated solutions replace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, create, communicate, prototype or produce real parts, empowering customers to create and make with confidence.
