## 3D Systems Sponsors BRAMMO 'Green' Motorcycle

- 3Dproparts™ SLA® Bodypanels To Race At US Grand Prix -

**ROCK HILL, South Carolina – July 22, 2010** - 3D Systems (NASDAQ: TDSC)- announced its sponsorship of the BRAMMO "EMPulse RR" electric racing motorcycle to be unveiled today at the US Grand Prix in Monterey, California. This innovative 'green' motorcycle, built with SLA® bodypanels courtesy of its [3Dproparts™](#) service, will debut in the first all-electric race at Mazda Raceway, Laguna Seca in front of over 100,000 spectators.

3D Systems pioneered the use of Additive Manufacturing solutions for transportation and now, through it's comprehensive [3Dproparts™](#) network, 3D Systems offers companies like BRAMMO, Inc. complete suite of design to manufacturing solutions.

"We are proud to sponsor the new 'EMPulse RR' race bike and recognize BRAMMO's leadership in the design of functional, sustainable electric vehicles," said Cathy Lewis, vice president of global marketing for 3D Systems.

"Our relationship with 3D Systems is integral to our success. We depend on 3Dproparts™ to provide us with unmatched surface finish, durability and dimensional accuracy for all of our concept and race bikes," stated Brian Wismann, director of product development, BRAMMO, Inc.

## **Forward-Looking Statements**

Certain statements made in this release that are not statements of historical or current facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the company to be materially different from historical results or from any future results expressed or implied by such forward-looking statements. In addition to statements that explicitly describe such risks and uncertainties, readers are urged to consider statements in the conditional or future tenses or that include terms such as "believes," "belief," "expects," "estimates," "intends," "anticipates" or "plans" to be uncertain and forward-looking. Forward-looking statements may include comments as to the company's beliefs and expectations as to future events and trends affecting its business and are necessarily subject to uncertainties, many of which are outside the control of the company. The factors described under the headings "Forward-Looking Statements," "Cautionary Statements and Risk Factors," and "Risk Factors" in the company's periodic filings with the Securities and Exchange Commission, as well as other factors, could cause actual results to differ materially from those reflected or predicted in forward-looking statements.

## **About 3D Systems Corporation**

3D Systems is a leading provider of 3-D Printing, Rapid Prototyping and Manufacturing systems and parts solutions. Its expertly integrated solutions reduce the time and cost of designing products and facilitate direct and indirect manufacturing by creating actual parts directly from digital input. These solutions are used for design communication and prototyping as well as for production of functional end-use parts: Our customers Create With Confidence.

### **About BRAMMO, Inc.**

BRAMMO Inc., the manufacturer of the BRAMMO Enertia powercycle, was formed in 2002 by entrepreneur Craig Bramscher. BRAMMO is headquartered in Ashland, Oregon situated between the Cascade and Siskiyou Mountains in the southern part of the state, 12 miles north of the California border. The company name "BRAMMO" dates back to Craig Bramscher's high school football days – it was the nickname given to Craig by his football coach. Craig's life long passion for beautiful vehicles now blends with his commitment to sustainability as he inspires BRAMMO's product offerings to be equal parts exhilaration and eco-consciousness.
