## 3D Systems Brings Latest 3D Content-To-Print Capabilities To EuroMold

- Visitors Will Experience Interactive, Hands-On Demonstrations -

**ROCK HILL, South Carolina, October 31, 2011** – 3D Systems Corporation (NYSE:DDD) announced today that it plans to bring its latest suite of 3D content-to-print solutions to the 2011 EuroMold Exhibition in Frankfurt, Germany, November 29 - December 2, 2011 in Hall 11, locations F110 and FN01.

3D Systems will offer a series of interactive presentations during the four day event that include its latest [personal color printers](#), affordable new [design productivity tools](#), like [Alibre Design™ 2012](#) and its expanded European [on-demand parts services](#).

3D Systems, in partnership with DEMAT and Geomagic, also plans to host a unique, interactive 3D consumer experience featuring the latest 3D content-to-print tools in the breezeway that separates Hall 11 and Hall 9.

“We look forward to sharing our entire portfolio of 3D content-to-print solutions with EuroMold attendees,” said Cathy Lewis, Vice President, Global Marketing, 3D Systems. “EuroMold is the perfect venue for visitors to experience our commitment to democratize access to powerful and affordable design to manufacturing tools and services.”

## **About 3D Systems Corporation**

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides creative content development, design productivity tools and curation services and downloads. Its expertly integrated solutions replace, displace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, communicate, prototype and produce functional parts, empowering its customers to create with confidence.
